

Coated Wire: thermo SWA

Brass Core, Zinc Coating

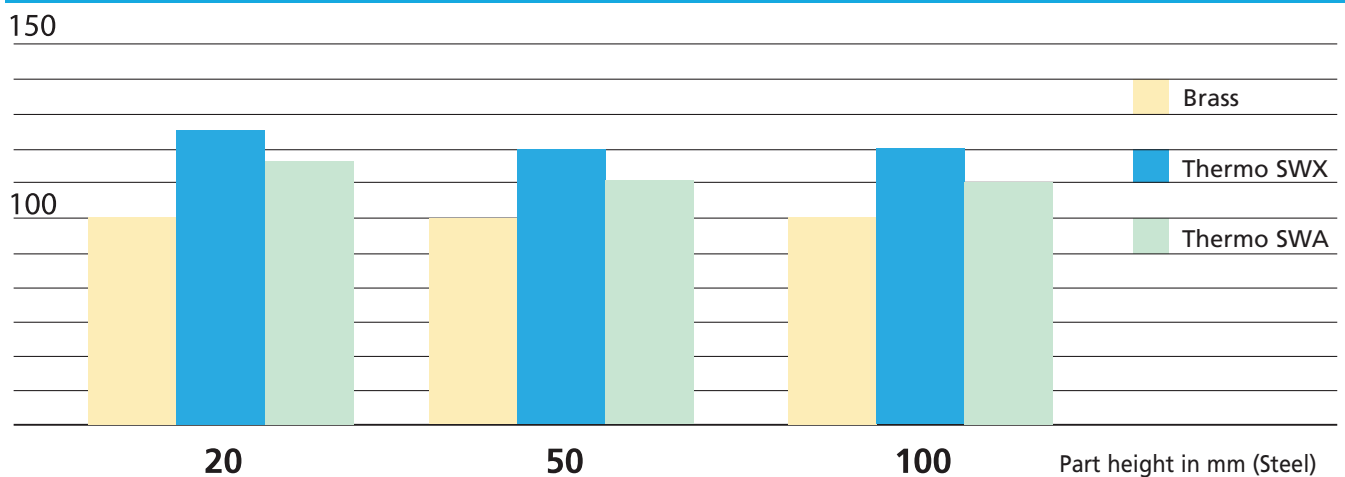

This is a hard brass wire with zinc coating. It is especially suitable for fine precision cuts, as the high-quality zinc coating ensures a clean finish along the cut surface. The high traction performance of this wire is also one of its particular qualities. It is recommended

for automatic threading.

- ↳ Recommended for high precision work
- ↳ Obtains excellent surface finish
- ↳ Suitable for automatic threading
- ↳ High reliability during machining

Characteristics	Thermo SWA
Core	CuZn 37
Coating	Zn
Tensile strength	900 N/mm ²
Yield strength	800 N/mm ²
Elongation	1,5 %
Conductibility	22 % IACS

Relative cutting speed [%]
